## Sustainable Water Solution.

Experience Pure, Healthy Water  
Anytime, At Your Convenience.

## Hot & Cold 4.0L Water Purifier

**Enjoy Instant Purified Water – Hot or Cold, Just the Way You Like It!**  
**With our innovative water system, you can enjoy complete purification, instant heating, and precise temperature adjustment, including cooling.**

### INSTANTLY HOT, COLD, AND ALWAYS PURE.

We're offering you the ultimate hydration experience with our state-of-the-art water purification system. Our 4-litre water purifier instantly provides drinking water at temperatures ranging from 45°C to 100°C, perfect for tea, coffee, and hot beverages. It can also rapidly cool water to a refreshing 5°C to 10°C, offering you the perfect drink, hot or cold, anytime.

With innovative technologies like those found in CLIMATE's water filters, you can enjoy a constant supply of safe, fresh drinking water, purified and free from contaminants.

### R2 SHIELD MASTER DUAL STREAM

Bacterial & Virus Intercept Rate: >99.99%.  
 Double Chamber Multi-Stage Purification.  
 Filters out residual chlorine, sediment, pesticides, rust, sand, and other impurities, ensuring cleaner, odour-free water.

### Non-woven Fabric PP Post Activated Carbon (PAC) Cellulose Filter

3 layer High Precision PP fibre + activated carbon fibre.  
 Reduces sediment, chlorine, heavy metals, VOCs, and microorganisms for better-tasting, healthier water.

### Reverse Osmosis Membrane Filter

Removes limescale, lead, chlorine, fluoride, PFOS, and other impurities from water. Reduces salts like sodium, potassium, calcium, magnesium, chloride and sulphates.

## Energy-saving and Efficient 3s Instant Boil Consumes up to 60x less power than kettles

### Countertop Water Purifier with Water Filter, Instant Heater & Rapid Cooling Function

**User Friendly LED Display Screen**  
 Super large display LED – multi-temperature rotary dial control

### Double UV-C Lamp Automatic Sterilization

- Double UV-C technology ensures every drop is sterilised, eliminating bacteria, viruses, and fungi.
- Prevents microorganism growth by disrupting their DNA.

### Instant hot water

- Spiral heating technology delivers hot water at multiple temperature settings (Ambient to 100°C) instantly.

### Rapid Cooling

- High efficiency R600a compressor cooling – chilled water to 5°C.

### Installation-Free Design

- No plumbing or pipes needed.
- Portable, with a liftable 4L water tank, making it easy to use anywhere.

- Total Dissolved Solids (TDS) Indicator.
- Energy-efficient with low standby power.
- Stainless-steel internal cold water tank.
- Isolated double filter chambers prevent contamination of stored water.
- One-click self-cleaning system.
- Easy filter replacement and washable drip tray.
- Safety lock for temperatures ranging from 45°C to 100°C and water shortage indicator.
- Super large, bright touch screen design – easy to operate.
- Stylish, minimalist design.

**R2 SHIELD MASTER DUAL STREAM**  
 Non-woven Fabric PP  
 Post Activated Carbon (PAC) Cellulose Filter  
 Filter Model No : CP60908  
 Reverse Osmosis Membrane Filter (RO)  
 Filter Model No : CP60909

**One Touch to prepare every drink to perfection**  
 Spiral heating technology delivers water at (Ambient to 100°C) instantly

Magnetic, detachable, and easy-to-clean drip tray

LED Touch Screen

Hot and Cold Water in One

RO Filtration Technology

Scale-free Clean Taste

Removes Impurities in Tap Water

Kills Bacteria Often Found In Filter Jugs

Unlike Bottled Water, No Microplastics

No Need For Scaly Kettles

# R2 SHIELD MASTER DUAL STREAM

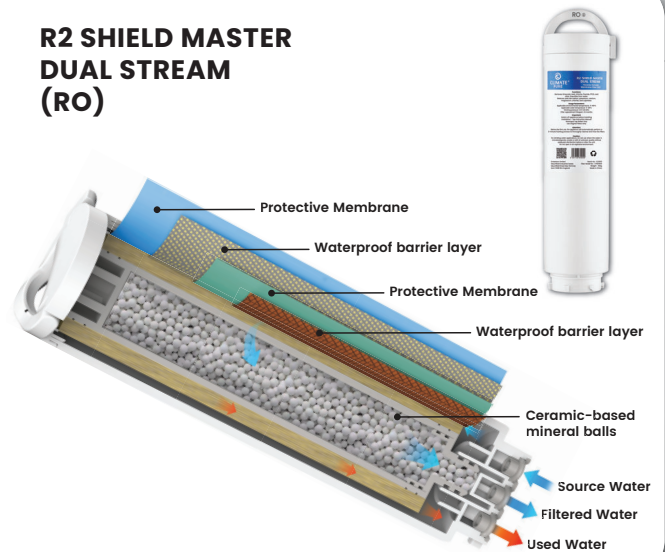

## R2 SHIELD MASTER DUAL STREAM (PAC)

### Non-woven Fabric PP Post Activated Carbon (PAC) Cellulose Filter

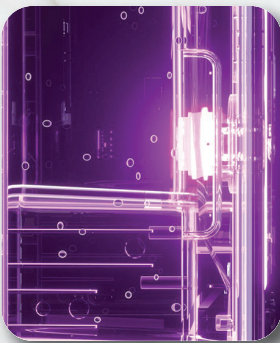

- 3 layer High Precision PP fibre + activated carbon fibre.
- Reduces sediment, chlorine, heavy metals, VOCs, and microorganisms for better-tasting, healthier water.
- Average Filter Lifespan: 12 Months (Replacement Filter Model No: CP60908)

## R2 SHIELD MASTER DUAL STREAM (RO)

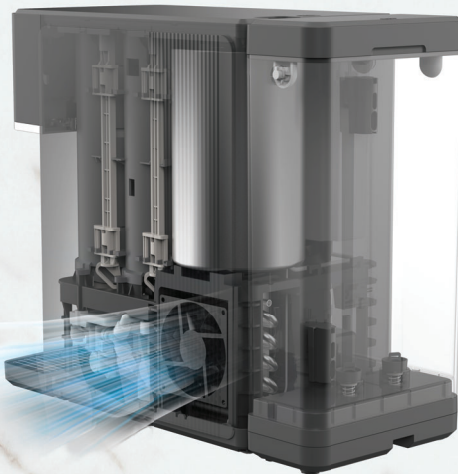

### Reverse Osmosis Membrane Filter (RO)

- Removes limescale, lead, chlorine, fluoride, PFOS, and other impurities from water.
- Reduces salts like sodium, potassium, calcium, magnesium, chloride and sulphates.
- Average Filter Lifespan: 24 Months (Replacement Filter Model No: CP60909)

### Double UV-C Lamp Automatic Sterilization Sterilized Water. Every Drop.

Double UV-C technology ensures every drop is sterilised, eliminating bacteria, viruses, and fungi

**Security Filter - Isolated from Water Tank**  
(No Contamination Mix from Water Tank Filters)  
Prevents bacteria build-up found in tank/jug filters

### R2 SHIELD MASTER DUAL STREAM Specifications

Product Name	Non-woven Fabric PP Post Activated Carbon (PAC) Cellulose Filter
Product Colour	White
Filter Replacement Lifespan	12 Months
Filter Material	Non-woven Fabric PP Fibre+Activated Carbon Fibre
Product Size	D72 x L258mm
Product Weight	303g
Replacement Filter Model No	CP60908

Product Name	Reverse Osmosis Membrane Filter (RO)
Product Colour	White
Filter Replacement Lifespan	24 Months
Filter Material	Reverse Osmosis Membrane
Product Size	D72 x L258mm
Product Weight	402g
Replacement Filter Model No	CP60909

**Instant Heating Technology**  
Instant Hot Water in 3 Seconds

Purification System

Energy Saving

Instant Heat

No Microplastics

**Fill Directly from Municipal Tap Water**  
(No Contamination Mix from Water Tank Filters)

## Why Climate Pure?

### Benefit Everyone. Committed To Clean Water.

At Climate Pure, we believe in purifying drinking water to protect the Earth. Our focus is on removing impurities while preserving essential minerals.

Through cutting-edge filtration technology and ultra-pure water purification principles, we have developed some of the most advanced water purification appliances available today—truly a fusion of SCIENCE and APPLIANCE.

## Mission & Vision

### Making A Difference, One Drop at a Time

As a dedicated water filtration company, Climate Pure harness science, technology, and talent to ensure clean drinking water from mains supply. Our goal is to positively impact the health of 2.5 billion people by the end of the decade.

At CLIMATE, our mission is to enhance the well-being of all by optimizing our most vital resource: water. Our purifiers convert local tap water into premium drinking water, significantly alleviating the environmental impact of plastic waste and bottled water transportation. By eliminating impurities from tap water, we promote a new standard of hospitality in an era where environmental and health awareness are increasingly important.

We are committed to accountability and sustainable energy, aiming for a lasting impact on our world.

**“Water Is The Life Force Of Our Planet—It’s The Core of Climate. Water Defines Our Mission.”**

## History

### Where Science Meets Innovation

CLIMATE emerged from a visionary commitment to combat plastic waste and champion pure hydration. Our dedicated team features leading scientists from prestigious institutions, including Imperial College London and Cambridge University, specializing in Materials Science, Chemistry, and Physics.

In partnership with Emberton Electrical, a pioneer in high-quality commercial appliances for over 35 years, we fuse scientific brilliance with engineering prowess. Together, we’re revolutionizing the development of innovative, state-of-the-art water purifiers that make a profound impact on both health and the environment.

### Guests Welcome Our Water Purifiers

Climate Pure is synonymous with trust and quality for purified drinking water, setting us apart from typical hotel equipment.

We provide creative in-room materials to gently encourage guests to embrace reduction in bottled water and welcome CLIMATE PURE water purifiers.

With Climate Pure, guests will feel assured and excited to choose our innovative water purifiers to benefit sustainability.

## Specifications

Product Name	Hot & Cold 4.0L Water Purifier
Power	2200-2300W, AC220-240, 50Hz
Product Material	ABS
Product Colour	Matt Black
Cable Length	1 Metre
Water Tank Capacity	4.0L
Water Source	Suitable for Municipal Tap Water Only
Cold Temperature	5-10°C
Temperature Range	Ambient-100°C
Product Size	468 x 213 x 390mm
Product Weight	11.2kg
Certification	CE, CB, UKCA, REACH & RoHS Approved
Main Unit Model No (Includes 2 Filters)	CP60900 - EU PLUG CP60901 - UK PLUG
Replacement Filter Model No	CP60908 - R2 SHIELD MASTER (PAC) CP60909 - R2 SHIELD MASTER (RO)
