Tiptree Automatic Sanitizer Dispenser

Touch-Free dispensing system is sensor activated and simple to use, providing users with extra protection and reassurance.

- ➔ Sensor activated for hands free sanitizing - essential for hand hygiene
- ➔ Equipped with elegant transparent window for easy view on fill level
- ➔ Calibrates the dispensing volume to provide optimal dose for effective hand hygiene
- ➔ Low energy consumption circuit design extends battery life up to 2 years usage per battery set or 80,000 dispensing cycles
- ➔ Flashing light indicator to notify the status of low battery or blockage
- ➔ Secured by unique safety key lock system for contents & cartridge protection
- ➔ Sturdy ABS engineered plastic
- ➔ Adjustable & robust pumps for liquid or gel
- ➔ Easy wall mounted installation
